Our Services : Hybrid Solar System | On Grid Solar System | Off Grid Solar System | Battery and Invertor | CCTV

Qt; Reference No:- DCR:09-26-13

Date : 06/09/2026

SOLAR POWERPLANT

GRID TIE SYSTEM

CLIENT NAME

VIJAY LAL

SYSTEM CAPACITY

3KW

SOLAR GENERATION TECHNOLOGY

About Solar Generation Technology

There is an ideal opportunity for domestic users/SME Units/Corporate sector/Builders/Large HT users/Colleges and schools/Govt Departments to install SOLAR POWER PLANTS in their roof top, to produce captive power. The recent SOLAR POLICY announced by Central and State Govt encourages the use of solar energy to resolve the current power deficiency in the country.There is an ideal opportunity for domestic users/SME Units/Corporate sector/Builders/Large HT users/Colleges and schools/Govt Departments to install SOLAR POWER PLANTS in their roof top, to produce captive power. The recent SOLAR POLICY announced by Central and State Govt encourages the use of solar energy to resolve the current power deficiency in the country.

Generation of power from Solar Energy

Grid System – In this segment, you can install solar power plant on your roof, produce electricity during the day and directly utilize the same. This system is most common for applications above 10KWup to MW size. In this system, you can only use the solar power as and when it is produced but power cannot be stored.

Off Grid System– In this segment, you can install solar power plant on your rooftop ,generate electricity and store it in battery banks. The system functions in the following manner

The battery is charged, priority bysolar power and if not, by EB power.

When the battery is full and if the solar power is available – then the load is connected to solar power – even when EB power is available.

When solar is not available and the battery is fully charged– the load is powered by Batteries until the battery voltage drops beyond a predetermined range beyond which EB takes over.

When both Solar and EB power is not available – the load is supplied from the battery bank. Generally these systems are highly suitable for both power cut situations and off- grid solutions and are available for capacities ranging from

Bi directional Hybrid Unit– IBidirectional Hybrid Unit Load is powered by Solar and Battery. Any excess energy produced will be exported to the grid through a net meter.

LIST OF PROPOSED MANUFACTURERS

SL NO	ITEM	MANUFACTURER	COUNTRY OF ORIGIN
1	SPV Modules MONOPERC (Half-Cut) Bi Facial	MICROTEK	India
2	Inverter On grid	MICROTEK	India
3	ACDB with IP65 enclosure, SPDs switchgears.	HAVELLS	India
4	Standard module mounting structure over the rooftop for installing 3 kWp solar panels	SOLAREDGE INNOVATIONS	India
5	DC Cables - PVC Insulated & UV Protected	MICROTEK	India
6	AC Cables PVC Insulated	R R KABEL/HAVELLS	India
7	Solar Energy Meter Tested & Calibrated	L&T/GENUS / VISIONTEK / ANY STANDARD MAKE	India
8	Lightning arrestor 1.2m copper bonded Multi spike	EXCEL EARTHING	India

CLIENT INFORMATION

Client	VIJAY LAL
Address	ELAKAMON
Contact No	7306251522
Capacity	3Kw
Type	ON GRID

TECHNICAL

SOLAR PV MODULES - MICROTEK	
Type / Model	545 W MONOPERC TOPCON HALFCUT BIFACIAL DCR PANELS
QTY	6 Nos
WARRANTY	30 Years, Power Output Warranty, 15 Years Replacement Onsite Warranty

ON GRID INVERTER - MICROTEK	
QTY	1 Nos
Warranty	10 Year Onsite Warranty
ADDITIONAL WORK	NA

3 KW MICROTEK SYSTEM WITH BIFACIAL MICROTEK MONOPERC HALFCUT DCR PANELS - 3270 W

ROOF TYPE	TOTAL PROJECT PAYABLE
Project Cost for Solar System	**5,10,000** (Two Lakh Ten Thousand only)

OTHER FEES PAY TO OBTAIN PERMITS FROM KSEB	
KSEB feasibility fee	Rs.1000
KSEB Registration fee	Rs590 (RS.9676+GST) (Rs1180 per KW) 80% (Rs.4720) refundable
Inspectorate Charge	NIL
KSEB Registration fee	Single Phase (Rs. 4,900) / Three Phase (Rs. 10,000): CUSTOMER SIDE

Government subsidy will be provided within 35 days after completion of work and KSEB connection is obtained.

WARRANTY

PANEL-30 YEARS (15+15): Performance warranty as per manufacturer, Breakage of glass is not covered under warranty for replacement

INVERTER - 10 YEARS (ONSITE COMPANY WARRANTY)

Isolator - 3 Years

ACDB, DCDB, Wi-Fi Dongle - 1 Year

TERMS AND CONDITIONS

Prices: FOR - Kerala.

Freight and handling(offloading): Included

Implementation Note: For the effective implementation of the project the beneficiary will have to support us for handle and settle loading. unloading and any other outside interference, if any, in connection with the installation work.

Installation: Included

GST: Included

Structure cost: Included

KSEB Fee: Included in the estimate

Payment Terms: 50% as advance along with the workorder.50% cost after Installation

Delivery and Commissioning of project: Materials will be delivered within 15 Days from the date of advance payment and signing of work Order. Installation will be completed within 7 days, after delivered of materials.

Complaint registering and Service Support: Kindly contact us on this number +91 9526801406 for any complaints between 9:30AM and 5:00 PM from Monday to Saturday

Validity: Quotation is valid up to 15days

Governance Clause: The quotation is governed by terms and conditions here in contained. We shallnot be deemed to be governed by your terms and conditions if any, unless a specific written acceptance of the same is given by us.

Jurisdiction: Courts in Kollam City alone will have the Jurisdiction, in respect of any claimed spite or any matter arising out of this quotation

Force Majeure Clause: Our offered Prices are fixed. However, may change as per Indian Government regulation. We trust that our offer is in line with your requirements and look forward to receive your valuable
